## Tax saving strategies prior to 1 July 2019

*A good strategy to reduce tax payable is normally to accelerate any income tax deductions into the current income year, which will reduce overall taxable income in the current year.*

The tax rates for resident (adult) individual taxpayers for the **2018/19** income year are as follows:

Taxable Income threshold	Tax payable <sup>1</sup>
0 – \$18,200	Nil
\$18,201 – \$37,000	19% of excess over \$18,200
\$37,001 – \$90,000	\$3,572 + 32.5% of excess over \$37,000
\$90,001 – \$180,000	\$20,797 + 37% of excess over \$90,000
\$180,001 and over	\$54,097 + 45% of excess over \$180,000

1. The Medicare levy of 2% generally applies in addition to these rates.

### 3. Self education expenses

Consider prepaying the following self education items before the end of the income year:

- ◆ course fees (but not HECS-HELP fees), student union fees, and tutorial fees; and

Also bring forward purchases of stationery and text books (i.e., those which are not required to be depreciated).

### 4. Other work-related expenses

Employees can prepay any of the following expenses prior to 1 July 2019:

*Note: When prepaying any of the expenses above before 1 July 2019, ensure that any services being paid for are to be provided within a 12 month period that ends before 1 July 2020. Otherwise, the deductions must generally be claimed proportionately over the period of the prepayment.*
